Cell phones, on passenger air flights?
Who is so stupid as to permit it?

No, Cell 'phone users have Not gotten
more polite or aware of others.

Restaurants, Church Services, films,
and much more are disrupted by
Sudden calls. 'Nuff said?

With all the hassles of flight-
even more with idiotic "Security"
hassles - must a passenger be forced
to hours of this crap? Why?

If all these conversations are so
important - how did people live
with out them in the past? And
from much of what I hear, most
is "chatty" stupidity.

leave it on the ground.

p.s. Israel now makes Jamblers for
Cell 'phones; use them in Churches
in Mexico. Why does F.A.A. not
authorize them?
